## French dairy ingredients for Food and Nutrition industries at Food Ingredients China 2025

### Dairy based ingredients

With rising milk powder prices and limited availability, manufacturers face the challenge of maintaining taste and affordability.

The **PROCREAM®** range offers expertly crafted alternatives **to replace skimmed milk powders**, preserving flavor and texture while controlling raw material costs.

Discover **PROCREAM® 15** and our concepts and recipes for **biscuits, custards, and ice creams** at FIC!

### Nutritional proteins

Proteins are a fundamental nutrient for **all ages and lifestyles**.

Rich in **essential and branched-chain amino acids**, they support muscle maintenance and tissue regeneration, **key to overall well-being**.

Essential for athletes to optimize **performance** and **recovery**, they also play a crucial role in preserving **mobility** as we age.

Discover our nutritional protein range, **PRODIET®**, and its two concepts:

- **RAISE UP**: The **performance booster**, featuring our **PRODIET® HYDROLYSATE B 40**, with a 40-degree hydrolysis, **combining the benefits of whey and casein**.
- **KEEP UP**: The ally for **healthy aging**, powered by our **PRODIET® FLUID** and **PRODIET® HYDROLYSATE S 25**, helping to **combat muscle loss** in a **delicious** and **nutritious drink**.
